

# Tehama County

## ECONOMIC BENEFITS OF HIGHWAY, STREET, BRIDGE & TRANSIT INVESTMENT

Highway, street, bridge, and transit investment in **Tehama County** will support **\$578.3 million in annual economic output and user benefits over the next decade**, including:

- **\$326.9 million in business sales**, which supports **1,411 jobs**.
- **\$85.8 million in wages**, which is included as part of the \$168.6 million added to the state’s Gross State Product (GSP), measuring total economic output.
- Individuals and businesses contribute **\$51.2 million in federal, state, and local tax revenue**.
- Transit riders and drivers save an additional **\$114.5 million/year** due to improvements to the system.

**Tehama County Jobs Supported by Highway, Street, Bridge, & Transit Investment**

**Breakdown of Tehama County Jobs Supported by Industry**

|                                | Annual Impact          | Total Impact (10 Years)   |
|--------------------------------|------------------------|---------------------------|
| Business Sales & Output        | \$326.9 million        | \$3.3 billion             |
| Employee Earnings              | \$85.8 million         | \$857.8 million           |
| Tax Revenue                    | \$51.2 million         | \$511.8 million           |
| Savings for System Users       | \$114.5 million        | \$1.1 billion             |
| <b>Total Economic Benefits</b> | <b>\$578.3 million</b> | <b>\$5.8 billion</b>      |
| <b>Number of Jobs</b>          | <b>1,411 jobs</b>      | <b>14,108 jobs-years*</b> |
| <b>Contribution to GSP</b>     | <b>\$168.6 million</b> | <b>\$1.7 billion</b>      |

Infrastructure investment has a positive ripple effect throughout the county:

**Business sales & output** occurs when transportation agencies/construction firms/supplier industries purchase goods & services and hire employees to operate, maintain, and improve local infrastructure.

Employees spend in the county and support additional hiring and spending which generates **tax revenue** from federal, state, and local income, sales and use, and business taxes.

**Earnings** from workers are part of the value each industry contributes to California’s **Gross State Product (GSP)**, a measure of overall economic output.

**Savings for system users** occurs as transportation improvements are made; drivers, shippers, and transit riders save money through lower operating costs and travel times, improved safety, and greater network access.

\*A job-year of employment is defined as employment for one person for one year. Thus, this number will include people whose jobs are supported over multiple years. For example, if a person is hired in this sector and remains in her position for five years, this is counted as five job-years.
